

OMNIA WHEEL

Plastic Die Setter/Tool Maker

THE OPPORTUNITY

Omnia Wheel is an award winning manufacturing business based in Beresfield, NSW. Started almost 15 years, we are the only omni-directional wheel manufacturer in Australia, and a world leader in our field.

With a focus on growth through innovation and mastery in our field we are looking for a reliable Moulding Technician to join our incredible family-feel team.
Full Time position available for IMMEDIATE START.

ABOUT YOU

You will be a person who is passionate about your trade. You will love plastic engineering and developing new and exciting ways to expand existing manufacturing practices.

The successful applicant will bring the following:

- Tertiary qualifications in Plastic Injection moulding
- Experience in a wide variety of plastic injection moulding machinery and processes. Including machine set ups, pressure & colour adjustments.
- Experience with a wide variety of injection tools. Ability to perform complex die changes (Including insert changes)
- Experience with quality assurance systems, practices and fault diagnosis.
- Forklift ticket

Other highly desirable attributes:

- Experience with multi cavity, automated, in die part transfer tooling.
- Experience with dual plastic injection tooling.
- Experience with semi and fully automated robotics.
- Small team leadership skills
