

OMNIA WHEEL

Fitter Machinist

THE OPPORTUNITY

Omnia Wheel is an award winning manufacturing business based in Beresfield, NSW. Started almost 15 years, we are the only omni-directional wheel manufacturer in Australia, and a world leader in our field.

With a focus on growth through innovation and mastery in our field we are looking for a reliable fitter machinist to join our incredible family-feel team.

WHO YOU ARE

A person who is passionate about your trade. You will love engineering and developing new and exciting ways to expand existing manufacturing practices.

At minimum, we are looking for the following skills and experience:

- Certificate 3 in Engineering (Mechanical Trade).
- A minimum of 5 years fitting experience working on complex plant and equipment
- Experienced machinist (Lathe and Milling)
- Proven computer literacy
- NSW drivers license
- Forklift Ticket

The following skills are not essential, but considered desirable:

- Experience with Injection Molding equipment
- CNC lathe and milling experience
- Experience in LEAN manufacturing environments

This is a Monday to Friday role with very occasional evenings. Salary will be commensurate with experience. Some overtime also available.
